

2025 - 2026

COLORSTACK @
TEXAS A&M UNIVERSITY

CORPORATE SPONSORSHIP PACKET

ABOUT COLORSTACK

ColorStack is a 501(c)(3) nonprofit with the mission to increase the number of Black and Latinx Computer Science graduates that go on to start rewarding technical careers.

Launched in 2020 and led by Founder Jehron Petty, a 2020 Computer Science graduate from Cornell University, we're the home for Black and Latinx college Computer Science students to find confidence, community, and career development.

ABOUT COLORSTACK @ TAMU

Founded in 2024, TAMU ColorStack is committed to supporting students pursuing careers in tech by building a strong and inclusive community.

We serve as a local hub for connection, growth, and opportunity throughout students' academic. We provide access to internship listings, career development resources, and technical workshops.

OUR PLAN

We are determined to build one of the strongest and most supportive communities in tech—working to increase representation and success through resources such as:

Weekly Meetings

Workshops

Mentorship

Networking

Our members learn new technical skills, form and grow connections, and build community, all in an environment where they can feel represented and included.

MISSION AND VISION

To foster and grow an inclusive community to bridge the gap for underrepresented populations in tech through providing tailored resources.

LETTER FROM THE FOUNDING PRESIDENT

While studying Computer Science at Texas A&M University, I noticed a gap in academic and career support for underrepresented students. In response, I founded ColorStack at Texas A&M, an organization open to all with a goal of increasing the number of Black and Latinx Computer Science graduates who go on to build successful careers in tech.

Today, thanks to the dedication of our executive board, TAMU ColorStack is a growing community of over 60 members. We offer tailored resources, career development events, and engaging activities that help members build lasting relationships and thrive in a supportive environment.

Nicholas Matias

LETTER FROM THE VICE PRESIDENT

I joined ColorStack because I wished I had access to an organization like this when I first entered college. It is a community of underrepresented students that provides resources, support, and opportunities in the tech world. Today, I have the honor of serving as Vice President, helping shape our chapter's success and impact for years to come.

There is no ColorStack without its people. As officers, we provide guidance, foster connections, and build relationships because it is our members who make us special. We not only support one another professionally but also strive to create a family where every member feels comfortable and valued. I am excited to see what this new year brings and how much closer we can come to fulfilling our mission of empowering minorities in tech.

Scholarship** 
~\$1500/pp

If these a la carte items aren't what your company is looking for, contact us at tamucolorstack@gmail.com. We would love to work with you to create a sponsorship package that works for your company. We can also provide specific items at A la carte pricing if that suits your company's needs.

THANK YOU!

We sincerely appreciate your generous sponsorship and your commitment to advancing diversity and inclusion in tech. Your support empowers our organization to make a meaningful impact while uplifting Black, Latinx, and Indigenous excellence in Computer Science. We look forward to collaborating with you and keeping you updated on our progress as we work together to empower the next generation of tech leaders.

On behalf of all of our members, thank you for helping make our initiatives and activities possible through your sponsorship.

Sincerely,

ColorStack at Texas A & M University
